A Note Before You Begin

This is a 26–32 hour course organised into ten modules that move from foundational concepts to applied UK practice, including a dedicated module on the UK GDPR. Each module includes core content, custom diagrams, real industry case studies, boxed key takeaways, and a five-question check-in quiz. Complete the modules in order, then sit the 40-question Final Certification Exam. A mark of 70% (28 out of 40) or higher is required to achieve certification.

01	Introduction to AI in Fashion & Retail	2 hrs
02	The Role of Ethics in AI-Driven Creative Work	3 hrs
03	AI-Generated Models, Content and Authenticity	3 hrs
04	Why AI Systems Fail in Retail	2.5 hrs

07	AI in Buying, Merchandising and E-commerce	3 hrs
08	AI in Recruitment and Talent Acquisition	2.5 hrs
09	AI, Sustainability and ESG Claims	2.5 hrs
10	Conclusion and Governance in Practice	1.5 hrs
—	Final Certification Exam (40 questions)	1 hr
—	Answer Key	

Certification Requirements

- Complete all ten modules in sequence, including the module check-in quizzes.
- Engage with the reflection material in each module, individually or in a facilitated cohort.
- Be able to explain, in your own words, the core frameworks introduced in Modules 2 to 9.
- Achieve a mark of at least 70% (28 out of 40) in the Final Certification Exam.
- Apply the governance framework from this course to a real or hypothetical AI system used in your own organisation as a capstone exercise.

UK IN FOCUS

This course is written for a UK context. It refers throughout to UK regulators and legislation — including the Information Commissioner's Office (ICO), the UK GDPR, the Data Protection Act 2018, the Data (Use and Access) Act 2025, and the Equality Act 2010 — rather than to EU or US frameworks, although these are referenced for comparison where useful.
