NOTE:**STANDING INSTRUCTIONS FOR THE USE OF ELECTRICITY IN NACWC ACCOMMODATION**

1. All personnel are to be frugal in their usage of electrical appliances inside their flats/rooms. Wastage of electricity must be avoided at all times. Switch off all appliances not in use, especially at night and early morning before departure for work.
2. Know that NACWC pays monthly electricity bills to Abuja Electricity Distribution Company. So, the electricity consumption is not free. Therefore, be mindful of additional bills from the wasteful consumption of electricity.

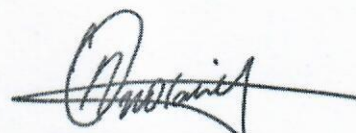

3. Use of water heaters, boiling ring, electric oven, and electric stove is prohibited. Defaulters will be sanctioned including a fine of ₦30,000 and forfeiture of the appliances.

4. Instead of using a heater, personnel could use hot water electric jug that automatically switches off when the water is boiled.

5. The use of air conditioners is strictly between the hours of 1800 - 0400hrs Mondays to Fridays while on Saturdays and Sundays will be from 1200 - 0400hrs when residents are inside their flats. Running of air conditioner while residents are outside the flats will attract the following sanctions:

- a. First time offender - ₦10,000 (to be deducted from staff grant).
- b. Second time offender - ₦30,000 (to be deducted from staff grant).
- c. Third time offender - Removal of air conditioner while labour charges with removal of the AC will be paid by the defaulting personnel.

6. All must strictly comply.
